### Biography:

Chantal has 15 years of experience in International standardization. She has specialized in the standardization aspects of emergency telecommunications through ETSI's work in the EMTEL (Emergency Communications) and MESA (Mobile Broadband Specifications for Public Safety) committees. She has also been actively involved in promoting the results of that work in other organizations such as the CEN Emergency Group and has participated widely in workshops on Emergency Preparedness and Mutual Aid.

Working within the ETSI environment, Chantal has gained considerable experience on the world stage and is renowned for her depth of knowledge in the emergency telecommunications field.
