

The International Emergency Management Society

**The International Emergency Management Forum–2012 (Guangdong)
in conjunction with the 3rd Annual Conference of
the International Emergency Management Society (TIEMS) China Chapter**

July 12, 2012 Guangdong Building, Mid Dongfeng Road, Guangzhou

***Strengthening the Cross-border Cooperation
& Cross-sector Interaction
in the Emergency Management***

ORGANIZERS:

TIEMS China Chapter Guangdong Emergency Management Society

Distinguished leaders, experts and friends:

We cordially invite you to attend the International Emergency Management Forum-2012 (Guangdong) in Conjunction with the 3rd Annual Conference of the International Emergency Management Society (TIEMS) China Chapter co-sponsored by the TIEMS China Chapter and Guangdong Emergency Management Society, which will be held in Guangzhou, China, on July 12, 2012. We hope that this conference will strengthen the cross-border cooperation and cross-sector interaction in China emergency management.

In recent years, natural disasters and man-made accidents are posing serious challenges to human society, especially cross-border composite disasters with increasingly widespread impact. Facing the increasingly complex disaster response situation, it is particularly important to strengthen the cross-border cooperation and cross-sector interaction in the emergency management. Therefore, this conference will be held in Guangdong as this province has made outstanding achievements in cross-border cooperation, and the theme of the conference is set as "Strengthening the Cross-border Cooperation & Cross-sector Interaction in the Global Emergency Management".

This conference will invite the leaders, experts and scholars from government departments and emergency management institutions to carry out extensive and in-depth discussions and exchanges of latest concepts, methods and techniques in prevention and preparedness, monitoring and early warning, response and rescue as well as recovery and reconstruction for all kinds of emergencies and demonstrate the latest achievements in the field of emergency management and public safety.

In addition, we will also carry out pre-conference training on early warning, evacuation and handling of local disasters such as tsunami on July 10 -11 and will invite well-known experts from home and abroad to give lectures. It will be the second domestic training course of the TIEMS China Chapter following the TIEMS Training (Shanghai) Demonstration Project in October 2011.

On July 13, nearly 40 government officials and experts in the industry will attend the half-day "Emergency Expert Symposia" to jointly discuss the new mechanisms and trends of emergency management interaction and cooperation and propose the solutions for the relevant problems. The secretariat of the conference will collect and issue the speeches by the experts.

Distinguished leaders, experts and friends, let us meet in Guangzhou to work together for a better future of the emergency management and public security industry!

Sincerely looking forward to your participation and support!

Chairman of the TIEMS China Chapter
April 2012

Employer and contact: the fourth Kai typeface

Abstract and key words: the fifth Kai typeface

Text and reference: the fifth Song typeface

(2) Type area: 240mm×145mm, single line space.

(3) The paper abstract and full text shall be duly submitted to the organizing committee's designated mailbox (paper@hidrema.org) generally in the electronic word format for purpose of exchange and timely communication and contact.

(4) When submitting the paper, please state the paper title, author name, employer, correspondence address, contact number, fax no. and paper contact's email address on one page.

(5) The paper will be published on the relevant website, periodicals etc.

4. Supporting Activities

TIEMS Emergency Management Training and Certification Project

Date: July 10-11, 2012

Venue: Guangdong Hotel, Guangzhou, Guangdong, China

Introduction: this training is jointly hosted by the TIEMS and the TIEMS China Chapter mainly for the relevant chief leaders and management personnel concerning emergency management at each level of Chinese government and each industry. The training involves: recent development of international emergency management, China's emergency management development and prospect, case study, and other courses. All training teachers consist of foreign and domestic famous experts, and after the training is completed, the TIEMS and the TIEMS China Chapter will jointly issue the training certificate.

Emergency Expert Symposium

Date: July 13, 2012

Venue: Guangdong Hotel, Guangzhou, Guangdong, China

Introduction: this symposium will be a relatively independent, non-profit academic communication and policy discussion platform, and aiming at the realistic demands for current emergency management theories and practice, multi-disciplinary system integration, collaboration and communication between different regions and special emergency management institutes, and invite domestic emergency management industry experts, scholars and government officials to make suggestions and offer advice through the discussion for strengthening China's emergency management "regional cooperation and emergency linkage" focusing on China emergency management practical problems and development demands.

This symposium will specially invite emergency experts to take part in, and warmly welcome conference representatives to participate actively!

Accommodation	Name of hotel	Room types
	Guangdong Hotel (4-star)	Deluxe suite
		Junior suite
		Single/double room

Introduction to the Venue and Hotel

Guangdong Hotel (4-star)

Guangdong Hotel is a 4-star hotel with accommodation capacity of 500 rooms. It's located in the downtown city and near the beautiful YueXiu Mountain and the world-famous Dr. Sun Yat-sen Memorial Hall. From the hotel, it only takes 10 minutes' walk to the main shopping street and 5 minutes' walk to the nearest metro station. The distance between the hotel and the Guangzhou Railway Station and the new International Airport is only 3km and 26km respectively. The hotel features exquisite contour, multi-layered open green balconies, garden-like podium top, spacious and magnificent lobby with trees, flowers and fountains on its middle floor, which presents all guests a picturesque southern landscape. Supplying complete facilities for services, recreation, business and conference, the hotel also provides the guests fine western and eastern cuisines in hotel restaurants with stylish dining atmosphere. It is an ideal place for business, tourism and conferences. We are cordially waiting for your presence.

Address: 309 Mid Dongfeng Rd., Guangzhou
