## TIEMS QIEDM Training Project was successfully held in Guangzhou

TIEMS QIEDM Training Project was successfully carried on in Guangdong Building, Guangzhou during July 10-11. This training project was co-sponsored by TIEMS and TIEMS China Chapter, and about 100 learners came from different level of China government emergency management offices and other emergency organizations took part in the project. TIEMS experts including Prof. James Hagen, Director of TIEMS North American Chapter, Prof. Young Jai Lee, TIEMS Korean Chapter, Prof. Shan Chunchang, Prof. Qu Guosheng, Dr. Zhang Ji from TIEMS China Chapter gave lectures and made the training project impressive and successful.

The training topics involved: recent development on international emergency management, China's emergency management development and prospect, EMDR case study and other courses.

The training project made the learners understand better the prospect of international emergency management development, broadened their vision in emergency disposal. With the successful experience, TIEMS China Chapter will continue to promote the QIEDM training projects, try to build a platform on learning international advanced ideas, methods and high-technology, help China government to further improve in the crisis

management and emergency response.
