

TIEMS 中国委员会第三届年会

THE 3rd ANNUAL CONFERENCE OF TIEMS CHINA CHAPTER

Invitation for the Pre-conference TIEMS-QIEDM Training before the 3rd Annual Conference of TIEMS China Chapter

(July 10-11, 2012, Guangzhou,China)

Foreword

Following the 2nd Annual Conference of the International Emergency Management Society (TIEMS) China Chapter which was successfully held in Shanghai in October 2011, the 3rd Annual Conference of the TIEMS China Chapter will be held in Guangzhou on July 12, 2012.

To better understand the international emergency management development trends, broaden the field of vision of emergency management professionals and emergency treatment officials and raise their level of knowledge and ability based on emergency management practices in both China and worldwide, the TIEMS Qualifications in International Emergency and Disaster Management (QIEDM), as an important agenda of the Conference, will be held in Guangdong Building, Guangzhou, on July10-11, 2012. The training course will jointly be organized by TIEMS and TIEMS China Chapter and

THE 3rd ANNUAL CONFERENCE OF TIEMS CHINA CHAPTER

mainly be targeted at the governments at all levels and the leaders and emergency management executives in various industries. The training contents include: the latest theories and progress of international emergency management, China's emergency management outlook and case studies and other courses. The lecturers in the training course consist of experts from TIEMS and domestic well-known experts. After the training, the trainees will be awarded the QIEM training and certification certificates jointly issued by TIEMS and TIEMS China Chapter.

We sincerely hope that the personnel from China emergency management departments at provincial-, city- and county-level will participate in the training!

TIEMS China Chapter

May 2012

Introduction to part of the lecturers

Prof. Shan Chunchang

TIEMS 中国委员会第三届年会

THE 3rd ANNUAL CONFERENCE OF TIEMS CHINA CHAPTER

Counselor of the State Council of China, Head of Emergency Management Expert Group under the State Council and chairman of TIEMS China Chapter

Professor-level senior engineer and senior economist. One of the main drafters of the Work Safety Law of the People's Republic of China and a number of safety regulations and standards, presiding over the investigation and handling of many serious accidents, such as "5.7 Dalian Airplane-crash Disaster", "11.24 Yantai Shipwreck" and "2.2 Harbin Catastrophe Fire". He has rich theoretical knowledge and practical experience in the field of safety production. In 2003, he participated in Research on Technologic Issues in Public Safety - the ninth task of the National Long-Term Technology Development Plan, and served as deputy head of the task team. In 2003-2005, he served as the deputy head of the Emergency Response Working Group under the General Office of the State Council and was one of main drafters of Overall Emergency Plan for National Emergencies and Accidents. He has made a valuable contribution to the emergency management work in China.

James C. Hagen (the United States)

Ph.D, MBA, Master of Public Health
